Partner of the Year Award 2009**  
Nominees were judged by a renowned team of IDC executives and analysts

## **Inatech. Advantage**

industry and technology insight from an accredited specialist

When time is of the essence, value is scrutinised, and projects must deliver - you need to speak with consultants who ask the right questions, work with you to recommend the right solutions, and have a passionate dedication to meeting goals.

Inatech is a successful global solutions provider, with a portfolio of Oracle services to suit the widest range of IT and business needs. Inatech is formally recognized by Oracle as a leader in the implementation of Release 12. With a proven track record in customer service and nominated for 'Emerging Business in Applications' Oracle Partner Awards 2009 - and a blended, cost effective service, we ensure that your needs are met using the right mix of people, processes, and technology.

Inatech's loyal customer base is a testament to the excellent service we provide and the real difference we make to an organisation's business. We have a 98% client retention rate and have experience implementing business solutions across all industries.

### **Why choose Inatech?**

- Our experienced business consultants implement projects on time and on budget
- Our blended onshore-offshore team model provides cost advantage & reduces the total cost of ownership

- Inatech's consultants are part of Oracle Customer Advisory Board (CAB) which provides our clients with an insightful roadmap into Oracle's future technology strategy
- We help maximize return on software investment through decode and structure licensing agreements
- We adhere to CMM and ISO quality standards to provide high quality solutions
- We have a track-record of successful client delivery across geographies
- Our global delivery centers enable faster implementation, reducing project costs
- We are flexible with how we partner with clients, working on 'fixed rate' or 'risk reward' approaches for projects
- We have a portfolio of proprietary solutions to enhance use of Oracle Applications and Technology and exploit every technical advantage for business benefit

Inatech is part of the Calsoft Group, a sister company to Calsoft Labs and Calsoft Enterprise Solutions. With wide-reaching support and backing from our parent company, Inatech has the international capability to manage large offshore projects with strategically located development and service hubs. Inatech services customers' development departments, and improves time to market for product.

“ One of the main drivers for this project was to improve performance. Together with Inatech's consultative approach, our aim was to successfully automate associated business processes and important tasks related to procurement, expense processing, payables and multi-GL consolidation

Faizal Eledath, Head of Information Technology, Dubai Bank

”

## Oracle. Insight

a wide portfolio of service to offer a single-minded approach

We are a multifaceted organisation with one aim - to work across partners, departments and technologies to offer the single best solution for the customer's ongoing business. Our service portfolio spans Oracle Applications, Middleware and Databases and includes:

- **Business Consulting** - create an information driven enterprise by connecting and automating your business through technology
- **License Management and Audits** - maximize returns on Oracle investment
- **Bespoke Development** - design and development of custom solutions
- **Upgrades & Migration** - exploit the latest technology
- **Managed Services** - 24x7 dedicated managed services through onsite/offshore support
- **Training** - skills development across core Oracle technology
- **Devising Technology Architecture and Roadmaps** - enhance your organisation's delivery by reviewing and reforming strategy
- **Systems and Process Integration** - transition technologies, processes and workflows to encourage adoption and enhance productivity

At Inatech, we pride ourselves that the advice we give is motivated by the desire to make our clients' businesses better. Inatech is committed to harnessing technology for business gain. Our multi-cultural global team delivers what's right for your organisation and your customers, not just what's right for right now. Big picture thinking, bold reviews, cost-effective delivery and business insight is demonstrated by our loyal client-base who return year after year.

To deliver fast benefits on scalable projects, we have developed a number of successful solutions that incorporate:

- **Apps & Certs** - a plug-in solution for the construction industry
- **Archival & Purge** - archive your Oracle EBS legacy data whilst ensuring business continuity
- **Auto DBA** - achieve excellence in monitoring and proactive actions for Oracle Database
- **Customer Data Hub (CDH) Enabler** - gain a single view of your customer database
- **Enterprise Information Portal (EIP)** - provide integrated information delivery
- **Analyse** - proprietary analysis and reporting health check tool for pre-upgrade audits on Oracle EBS or any other Database
- **Interface Framework** - migrate from legacy systems to the latest version of Oracle

## About Inatech (A Calsoft Company)

Inatech is an IT solutions company with strategic locations worldwide with over 1000 qualified consultants working across all industries. With its EMEA headquarters in London, UK, and offices in 16 cities in 8 countries, Inatech is able to take advantage of onshore and offshore resources. Founded in 2002, Inatech manages solutions development, systems management, and outsourcing. In 2007, Inatech merged with Calsoft Enterprise Solutions. An Oracle Platinum Partner, Inatech works with enterprises that are re-engineering their processes and are adapting to rapid change. Being part of Calsoft Group, supported by technical innovators Calsoft Labs, Calsoft Enterprise Group balances track record with invention. Inatech development practices are certified at CMMi Level 3.
