

# INATECH<sup>®</sup>

A GLENCORE Company

## Corporate Profile

# Who we are

⌚ A global provider of cloud *ETRM* and fuel management software for the physical oil trading and marine industries

## OVERVIEW

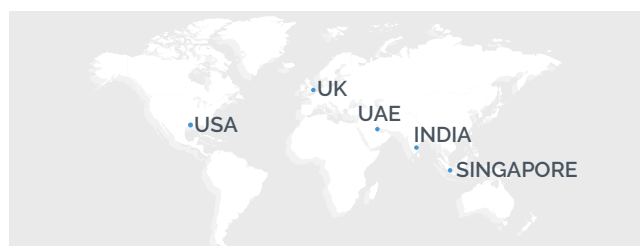

We combine best-of-breed cloud technologies with our in depth industry expertise to enable companies to integrate, automate and optimise business processes, driving efficiency and revenue growth.

Our customers benefit from an international delivery model that provides the competitive edge needed to thrive in today's dynamic markets.

## A GLENCORE Company

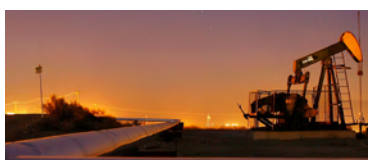

As part of their Oil division, Inatech benefits from the knowledge and expertise of Glencore in oil trading, hedging and management of the entire oil supply chain from exploration and production to retail and distribution.

## A GLOBAL FOOT PRINT AND LOCAL PRESENCE

# What we do

⌚ Transform the way companies do business by helping them harness the power of the cloud. Our cloud-based software products include:

## Techoil *ETRM*

### Buy, store, sell oil products

Help Oil Trading companies trade, streamline their complex supply chain, and manage their inventory and operations.

► [www.techoil.com](http://www.techoil.com)

## Bunkertech *ETRM*

### Buy, store, sell marine fuels

Help Bunkering companies streamline their bunker supply, trading, inventory and operations when dealing with shipping companies.

► [www.bunkertechcloud.com](http://www.bunkertechcloud.com)

## Shiptech

### Buy & consume marine fuels

Help Shipping companies to streamline their fuel procurement process, control fuel costs and comply with regulations.
