

# TECHOIL

BEST-IN-CLASS  
INTEGRATED TRADING  
& RISK MANAGEMENT  
SYSTEM

**INATECH**<sup>®</sup>  
An Aspire Software Company

## We Understand Your Challenges

Energy markets are complex and volatile. Since we have grown from the world's leading oil trading entity, we realize the challenges you face. To stay ahead of the competition, you need to effectively manage **fluctuating prices, regulatory compliance, and continually evolving environmental policies.**

Inatech's integrated trading and risk management solution, **Techoil**, comprising ETRM and ERP has been specially designed for the crude and refined products trading industry to effectively help you manage these challenges and stay a step ahead.

## The Right Solution for Businesses of All Sizes

With its modern workflow, Techoil automates front, mid, and back-office functions, so your team can shift focus from mundane tasks to strategic growth drivers.

## What Products Does Techoil Support

Crude Oil

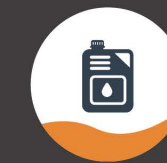

Diesel

Bunkers

Petrochemical

Market Exchanges

DTN Tab | Edin | Terminal Systems

ERP Systems  
Banking Systems  
Tax Systems

## Delivery Methods:

SaaS: Multi-tenanted; Hosted in Private Cloud; Hosted in Public Cloud

## Key Benefits

**Techoil's** features have been developed based on the needs of the oil industry, equipping you to make the **RIGHT** and **FASTER** decisions.

### Truly ERP agnostic:

Process purchases and sales straight through to invoicing. Easily integrate Techoil with your existing or any new ERP system available on the market.

### Instant processing:

Get a consolidated view of your business, real-time position management, and intra-day profit and loss statements with real-time trade reconciliation capabilities.

### Scalable:

A multi-tenant solution, that can be scaled to support hundreds of users to allow remote access.

### Error-free auditing:

Capture every keystroke, simplifying monthly close, yearly audit and much more.

### Effective inventory management:

Utilise costing methodologies such as moving average and FIFO (first-in, first-out).

### Extensive credit instruments trading:

Achieve decarbonisation goals with global credits instruments trading—USA: RIN, LCFS, Cap & Trade; EU: ETS-FAME & UCOME; UK: RTFC.

### Advanced risk management:

Utilise advanced analytical tools including what-if scenarios, portfolio analysis, and value at risk (VaR) models to hedge against downside P&L risk and protect profits. Ensure regulatory compliance with in-built checkpoints and best practices.

### Seamless physical operations planning & logistics:

Handle multiple modes of transportation including vessel, pipeline, barge, rail, and road as well as get complete support for physical and financial products.

## Every Reason to Choose Us

### STRONG FOUNDATION

We are a technology company with a 100% focus on improving our functionality for energy trading.

### INNOVATION

We collaborate with leading providers to develop the best-in-class technology.

### VALUE FOR MONEY

Our solutions are true cloud-based with implementation within a matter of weeks and NO recurring implementation cost.

### CONTINUED SUPPORT

We offer robust customer support service wherein every business request is dealt on priority.

## About Inatech

Established in 2002, Inatech is an innovative cloud-based energy trading risk management (ETRM) and fuel management solutions company. Serving the value chains across energy trading, fuel wholesale, distribution, and retail markets with scalable, decision-support systems, Inatech is the preferred partner for traditional energy trading businesses in their transition journey from fossil to alternative fuels.
